
Continue to wear your mask, however...

As the Covid-19 case rate has declined in our area since its peak in September, we have updated our policies for Sunday morning services. *Beginning this Sunday, November 28, fully vaccinated persons will not be required to wear a mask while seated in the Sanctuary.* Hymnals have been returned to the pews. The offering plate will once again be passed during the offering. Services will continue to last about 45 minutes. As always, feel free to wear your mask continuously or continue to worship at home via Facebook live if you are more comfortable doing so.

We continue to encourage everyone to be vigilant, and for everyone to get fully vaccinated with a booster if you are eligible (consult your doctor if you have questions). Frederick County remains a "high transmission" community [according to the CDC](#). Winchester City has improved to "substantial transmission."
